

Environmental Policy

.....Excellence Every Time

We value our reputation for excellence which has been established over the last twenty years and reflects the care and pride we invest in every aspect of our business, this care extends to protection of the environment and use of natural resources.

The company is committed to reducing its environmental impact and continually improving environmental performance as an integral and fundamental part of the business strategy and operating methods.

Objectives include:

- Reduce waste, manage energy and emissions and recycle everything possible
- Minimise the use of utilities and natural resources
- Prevention of pollution
- Identification and full compliance with applicable environmental legislation

Certification to the internationally recognised standard for Environmental Management (ISO14001:2004) is part of the integrated management system.

We will work to continually improve the company environmental performance and associated management system, to meet, satisfy and delight our customers. The systems defined have my active full support. They are under continual review and improvement, however once defined are mandatory for all personnel.

Richard Hobbs
